

SAPE MEMBERSHIP

Why Join SAPE?

The Association gives you a stronger voice to surface and resolve any issues you and your fellow PEIs may have that can impact your Institution's operations and well-being.

The Association has developed close links with all Government Departments. We foster a close working relationship with many senior Government officials, so we will be able to access the right department and personnel whenever necessary, to look into issues that affect the interests of the Association and its members.

We are an inclusive industry association, representing all segments of the private education providers, large and small, to speak on behalf of the industry.

As a collective representative body, we do have a better and bigger voice to do so!

To become a SAPE Member, please visit:
